

ET-ST0617

Voltage:220V
Power:1000W
Tube Material:SUS 310s
Resistance Wire:Nichrome wire
Dimension:Dia(8mm)*Length(80mm)
Application:
1. The dehumidifier
2.Warm heater
3.Train/high speed railway carriage
4.Drying equipment

ET-ST0614

working temperature:-20°C ~ +80°C
Leakage current:<5MA
Material:Brass
Application:
Injection molding machine;
Wire drawing machine extruder;
Sanitary equipment;
Kitchen equipment;

ET-ST0619

Voltage:220V
Power:2000W
Tube Material:SUS 310S
Resistance Wire:Nichrome wire
Dimension:Dia(14mm)*Length(60mm)
Application:
1. The dehumidifier
2.Warm heater
3.Train/high speed railway carriage
4.Drying equipment

ET-ST0615

Voltage: 220V
Power: 1800W
Material:stainless steel ,ceramic
Dimension: 150mm
Working temperature:-20~600°C

ET-ST0618

Voltage:220V
Power:1500W
Tube Material :SUS 310S
Resistance Wire:Nichrome wire
Dimension:Dia(10mm)*Length(10mm)
Application:
1. The dehumidifier
2.Warm heater
3.Train/high speed railway carriage
4.Drying equipment

ET-ST0616

Voltage: 220V
Power:1800W
Material:Mica sheet/stainless steel
Diameter:25mm
Working temperature:-20~600°C
